DETAILED ACTION

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gordon Lindeen on May 26, 2005.

The application has been amended as follows: in **claim 1, line 3**, after "support;" insert - - a component actuator lever coupled to the frame to hold the component in place; - -, in **claim 28, line 4**, delete ";" and insert - - and a component actuator lever coupled to the frame to hold the component in place; - -, in line 6, before "having" insert - - connector- -, in **line 8**, delete "." and insert - - and to move the contact prongs into electrical connection with the cable, - - and in **lines 9-10**, delete "and to move the contact prongs into electrical connection with the cable", in **claim 11 line 1**, change numeral "10" to - -1- -, in **claim 12 line 1**, change numeral "10" to - -1- - and **cancel claim 7**.

Allowable Subject Matter

Claims 11,12,33 and 37-42 previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on July 26, 2004 is hereby withdrawn.

Claims **1-6,8,9 and 11-15, 28-31 and 32-42** are allowed.

The following is an examiner's statement of reasons for allowance: patentability resides, at least in part, in the apparatus comprising a component actuator lever and a cable connector having guides, a set of contact prongs and an actuator lever to move the contact prongs into electrical connection with a cable, in combination with the other limitations of the base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kajiwara 6,074,221 and Self 5,859,538 were cited for similar connectors.
